## CURRICULUM VITAE

### DATA ANALYST COMPUTER ENGINEERING

## ABOUT ME

I am a dedicated Information Technology student with strong analytical and problem-solving skills, passionate about using data to inform high-stakes decisions. My foundation in structured programming, system design, and user interface development is complemented by hands-on experience in leadership and academic support. I am driven to apply data analysis techniques to serve national interests through accurate reporting, predictive modeling, and secure data interpretation. I bring discipline, integrity, and a strategic mindset suited for the defence intelligence environment.
